Dear Jim:

We are returning herewith executed copies (Nos. 1 and 3) of Task Order No. 4 and the receipt for Copy No. 2. We concur with the changes incorporated. There is still one item in the schedule under Task Order No. 4, however, which could be misinterpreted. We do not feel that this item is of such significance as to require change, but we would like to note that the accuracy stated in Paragraph I.b in the Schedule should read "+3.0 db in the region of (-)20 db below 1.0 m² has been indicated as achievable at the present time." We assume you will concur with this accuracy since (-)20 db below 1.0 m² is the threshold level of background noise in the current facility.

Following our execution of Task Order No. 4, our records indicate that as of 4 March, we need contractual coverage on the following items:

| <u>TO No.</u> | <u>Date Submitted</u> | <u>Cost Est.</u> | <u>Work Completed</u> |
